PROFILE

Hi, I am a master's in game design and technology at Gothenburg University graduate seeking employment. I have experience with various audio and visual production software, programming languages, and software development frameworks. I am equipped with diverse skills, with my interests lying in Game Design and Game Development. I am well organized, punctual, and dedicated in my working environment.

PROFESSIONAL INTERESTS AND SKILLS

Unity Engine, C#, HTML-CSS, PHP, A-FRAME, MySQL, 3D Blender

EMPLOYMENT HISTORY

Jan 2026 — Mar 2026
Göteborg, Sweden

Teacher Assistant at the University of Gothenburg

- Employed by the University of Gothenburg, taking the role of a Teacher Assistant (TA).
- Part of the Teacher Assistants effectively assisting colleague students during their projects by providing supervision and guidance.
- The course I was assisting as a TA was "Design and Construction of Digital Games"
- I had to work with many groups and follow along their design and development journey, providing technical and design-related assistance, and was appointed with the task of grading assignments.
- Deepened my knowledge of game design and teaching practices while working with colleagues and teachers from the game design and technology master's program.

Jul 2023 — Aug 2024
Remote, Greece

Apple UK Phone Sales & AppleCare Representative at Teleperformance Greece

- Developed a strong working knowledge of products and services, essential to convey their benefit and potency to customers effectively.
- Attended workshops and conferences centered around increasing service skills.
- Upheld the highest standards of honesty and integrity while ensuring sensitive data is handled accordingly (GDPR trained).
- Effectively assisted customers with technical issues regarding their devices.
- Established Team Member Score (TMS) goals, receiving positive feedback.

EDUCATION

Sep 2024 — June 2026
Göteborg, Sweden
